Subject: M6H1 - Harvey Response: Current status of Phone Surveys of WTPs and WWTPs
Date: Thursday, August 31, 2017 11:35:00 AM

Chery,

Today we are continuing our calls to both drinking water systems and wastewater systems.

David Galindo, Director of Water Quality Division, has asked me if I would help with the technical questions coming in from WWTP operators.

Of course I said I would be happy to assist the other TCEQ staff that are addressing these calls for technical assistance.

For now I am still making the phone assessment surveys of the WWTPs.

Juan
